WHITE ACCEPTS

The Peace Commission is Now Complete.

DAY, DAYIS, FRYE, REID, WHITE

The Commission Will Sail for Paris September 17th-Eighth Ohio Boys were Being Starved on Board the Mohawk—Great Reception Given Admiral Schley.

WASHINGTON, Aug. 27.-[By Associated Press]-The cabinet was in session two hours yesterday and devoted a large share of the time to matters which will come before the peace commission. At the adjournment of the meeting Secretary Day announced that four members of the commission had been selected, Secretary Day, Senators Davis and Frye and Mr. Whitelaw Reid. As to the fifth no definite announcement could be made, Justice White's acceptance not having at that time been received. The matter of his appointment is still held in abeyance and it may be a day or two yet before a final decision is reached. Another matter before the cabinet was the Cuba and Porto Rican tariffs. It was intended that the rates promulgated some days ago should be subject to change, if inconsistencies were found or if any injustice had been done the people of the islands, or if any particular trade or industry had been discriminated against. The particular question discussed yesterday was that of butter and butterine. Under the Spanish law butter paid a duty of six cents per pound and butterine was prohibited. It was decided to fix a uniform rate for both of three cents a pound in Porto Rico and one and eight-tenths cents in Cuba.

Butterine, moreover, will be required to be stamped as such. During the meeting a telegram was received from General Alger at Montauk Point, in which he said in effect that the situation there was reasonably satisfactory. The membership of the commission being completed, Secretary Day arranged to leave for Canton in order to make his personal preparations for the trip to Paris. He will be accomprnied abroad by Mrs. Day, who has entirely recovered from her recent illness. The secretary has already shipped to Canton a number of his personal effects, in anticipation of his early retirement from the head of the state department.

Later-Justice White, of the United States supreme court, has acaccepted the appointment as peace commissioner.

Schley's Reception at Washington.

WASHINGTON, Aug. 27.-[By Associated Press]-The visit of Admiral Schley at the navy department was the occasion of a spontaneous and unusual demonstration. Clerks crowded into the corridors. cheering and shouting, until the passage was blocked. Women were more demonstrative than the men, and many kissed the admiral, while all eagerly shook his hand. It was finally necessary to form a line and pass the crowd around through the admiral's office, to allow all to greet the admiral. He will leave Washington and sail for Porto Rico next Wednesday.

DIED OF STARVATION.

Awful Sufferings of the Eighth on Board Ship.

[From the Pittsburg Dispatch.] CAMP WIKOFF, Montauk Point, L. I., Aug. 25.—From all accounts the Eighth Ohio Regiment, known as "McKinley's Own," must have experienced a terrible time since leaving this country and while on their way home from Santiago on the transport Mohawk. The regiment was not allowed to land today, but some of the more seriously ill were brought ashore and placed in the general

One man managed to smuggle himself aboard the boat transferring the sick and tells a frightful story of the men's sufferings. From what he says the late stood about the hall, each asking his seen the "President's Own" before its of six entertainments and reported that Eighth Ohio has had more than its share of hardships, and on the way! Justice Sibila allowed it to continue until home had not nearly enough to eat.

Privates Rouse and Eddy, who died on the way home, he says, succumbed from the effects of starvation, and over three hundred men in the regiment are seriously ill, although only one hundred and thirty have been reported as being in that condition. He says the true state of affairs and the extent of the men's sufferings will not be known until tomorrow morning, when the Mohawk puts into the dock and is unloaded. The Mohawk left Cuba on the 18th, and ever since then the regiment has been, according to him, on scant rations. The soldier showed an entry made in his diary yesterday. It read: "I thought our regiment had lived hard on traveling rations, but it was nothing like I witnessed today on the Mohawk with the Eighth Ohio. The men had for supper | today, and after sandwiches and milk soup and hard tack. The soup was made from thirty small cans of beef and twenty cans of tomatoes. This was intended for 1,200 men, some of whom were so sick and weak that they could regiment, that all of the 297 sick disemscarcely hold up their heads."

It is only one instance cited by the soldier of short rations on the way back he says the food became so bad and so scarce that some of the men in the Eighth Ohio made a vigorous kick. A Large Crowd Fills the Court Room and the Opera House Block Hall and Is Very Much Disappointed When the Trial Is Postponed Until Wednesday.

The case of the state of Ohio against Peter Cabot, charged with refusing to shave G. N. Porter, seems to interest the public to a greater extent than did any other lately tried. Justice Sibila's court room was filled with a curious crowd, Friday afternoon, and those who came next Wednesday.

This was done at the request of the defendant, who stated that Dr. T. C. Miller, one of his witnesses, was absent from the city. J. O. Garrett represented Mr. Porter and R. H. Day the defendant. The affidavit alleges that Cabot refused to shave Porter because he is a colored man., The defense is that Mr. Porter's face was in no condition to be shaved. This is the second time that the case has ceen continued.

A meeting of the Massillon Lecture Course Association was held Thursday evening in the office of J. E. Johns at which the report of the executive committee was presented and accepted. This committee had been authorized to make H. Rieger, tenor; Arthur Beresford, bass; Adolph Rosenbecker, violinist, and H. Frey, accompanist. Each of these people is an artist such as seldom appears in Massillon and the attraction as a whole is by no means an experiment. The second number of the series is to be a lecture on the subject, "Fools," by P. S. Henson, D. D., L.L. D., of Chicago.

George R. Wendling will follow on January 10 with his lecture on "The Man of Gallilee," which many people of Massillon have expressed a desire to hear. The Rev. A question has been raised as to th language in which the proceedings of the peace commission will be conducted Since diplomacy has been a recognized part of international intercourse, until having received an order to evacuate recently, French has been the language used in the negotiations, but a disposition is manifest to make English, which is much more widely known, the language to be generally used. The use of English would of course be most satisfactory to the American commissioners, for it is not likely that all will have even a tolerable knowledge of the French language, while on the other hand, the Spanish commissioners will probably understand English, so that the use of our mother tongue would be most convenient. The question can only be settled by the commissioners when they get together in Paris.

Nearly All Say That Porto Rico Should be Retained, but Only a Few Feel that the Philippines Should be Ours, Though a Coaling Station is Necessary.

The eyes of the civilized nations of the world are upon the United States. What will be its policy at the present time is the question of the hour. In Massillon, as in all other parts of the country, the discussions have developed a wide diverthe progress of the nation requires it to maintain the footing gained in the far East. Ten days after the emperor's departure eight hundred Bourbon aristocrats from Marseilles rode into Gap to chastise the poor old town for its Bonapartist demonstration. The invaders had forced themselves upon the inhabitants, extorting the best food and lodging the place like this:

"Tremble, ye Gavots! We come to chastise you. Tremble, city of Gap! Your last day has come. We come to burn you!" Election of Officers and the Award of Prizes.

Indianapolis, Aug. 27.—The supreme lodge. Knights of Pythias, adjourned yesterday's session at 7 o'clock, after having elected the following officers: Supreme chancellor, Thomas G. Vague rumors were floating about among the supreme representatives as to the condition of the Endowment Rank. This is the insurance branch of the organization, and has 53,579 members, carrying insurance amounting to \$99,261,500.

The statement of the board of control shows the resources to be \$523,276.62. It is charged that \$51,798.15 is entangled in the affairs of a defunct national bank of Fort Worth, Tex., and nothing but a judgment against bondsmen represents this money. Also that the \$236,127.39 invested in a hotel building property at Chicago which is now in the hands of a receiver, is nothing more than a fifth lien on the property. These rumors are

Senator Hanna will probably return from the west next week, in which event, President and Mrs. McKinley may make a short visit at his beautiful summer home on the bluff of the lake, west of the city.

WASHINGTON, Aug. 27.—The president received the following letter from General Joe Wheeler yesterday: CAMP WIROFF, MONTAUR POINT,)

New York, Aug. 28. President of the United States:

"I was very glad to hear that you would visit Montauk Point very soon. The visit of the secretary of war has accomplished more than I can express. He has promptly corrected evils, made ratuable suggestions, given directions regarding administration. In additional to his personal visit to 1,500 sick soldiers in the hospitals has cheered them up, and it is difficult to adequately convey to you the change for the better since the secretary's arrival. The announcement that you will visit the soldiers has already added to this improvement, and your presence here for even a single day will accomplish good, the great extent of which you can only realize after you have made your visit. "From a military point of view, I perhaps took steps which might not be deemed justifiable under other circumstances, but I knew the temper and the capabilities of my soldiers and the moral effect of our gradually cooping up the enemy within his own lines. My engineers were very apprehensive that the Spaniards might break through on my left and cut off Siboney, but personally I had not for a moment any fear on that score. The result has, I think, proved the correctness of my conclusions.

One of the complaints which had been made was in regard to the Eighth many there have been given furloughs. New York at Chickamauga. It is stated at the war department that General Boynton, in command at Chickamauga, had been ordered to make a thorough and complete investigation of the hospitals at that place, to ascertain how the men have fared and report all the facts to the department.

men. What do you suppose it must be then with thousands? I found many There seems to have been neglect in carrying out the order of the department, No. 116, which allowed 60 cents a day to all soldiers in hospitals, the amount to be a general fund from which could be drawn money to purchase delicacies and necessaries for the sick soldiers. The order is dated Aug. 10. It was sent out Aug. 15.

The surgeon general's office complains that other orders sent out have not received the attention which should have been given them. This order, No. 116, it is said, was not only sent out through the surgeon general's office, but was sent direct from the adjutant general's office to the commanding officers in various camps. if it has not been carried out it is declared the fault has been at once to see whether this order has

been disregarded and why. Officers at the war department deprecate the manner in which complaints have been made on the ground that the whole matter will discredit the American army, and have a bad effect on discipline. The soldiers, they say, will be made to believe that they have been badly treated, that they are being imposed upon, and at some juncture it may result in mutiny and insubordination, for the reason that the troops in case of some order which seems espeially hard, will take matters into their own hands, claiming the people are with them. It is claimed that if the stories are all true it will indicate that the American army is of rarely little

account and cannot bear hardship. "War is a tragedy, from one end to the other," said a prominent officer of the department yesterday. "There were some people who thought it was a picnic and that the war in Cuba was to be a holiday time in Cuba. No man who considered the matter knew an. thing about the climate, the difficulties and the trials which would have to be undergone, felt that way. They expected hardships, expected that the troops would enter the portals of danger and death, would have to face but lets and fever. It is only wonderful that we have got off so easily. Our losses are less than expected when the war began.'

A Famous English Nurse.

Mrs. Florence Craven, an honorary associate of the Order of St. John, 18, with the exception of Miss Nightingale, the oldest trained nurse in England. Outside of royalties, she has probably more deco. ations than any other won an in the empire. She spent many years in the hospitals of Holland, Denmark, Germany, and France. When the Franco-Russian war broke out, she volunteered for ambulance work, and was placed in charge of a fever-station of the Tenth Army Corps before Metz. She had charge also of the Empress Frederick's lazaretto for wounded soldiers at Homburg. Mrs. Craven possesses a cross surmounted by the royal crown of Prussia, the decoration being specially designed for her by the Empress Frederick, then Crown Princess. The Grand Duchess of Baden conferred another decoration—a red cross on a white background, surmoounted by the imperial eagle. Perhaps the most lischarge of Revolver In Manila Lead remarkable of the distinctions she has received is the Iron Cross, the order of merit presented by William I. of Germany for distinguished services in time of war. She further received the war medal presented by the first German Emperor, for services in the wa of 1870.—Woman's Journal.

MUSEUM MUMMIES.

REPOSING IN LONDON.

British Museum Changes an Interesting Old Fossil Who Lived About B. C. \$,640, and His Next Door Neighbor, a Modern Lady of 400 A. D.

Museum during the last few weeks cannot have failed to notice that a comprehensive arrangement of the mummies and coffins in the first and second Egyptian rooms was in progress, for confusion and disorder were visible everywhere in these parts of the northern gallery, which seemed to have been abandoned to a little army of workmen of all kinds. The old cases which lined the walls were being repainted and polished, new cases to stand on each side of the stairway were being constructed, and the floor was literally strewn with mummified bodies of Egyptian priests and officials of every kind and with the coffins in ing fruit. The whole secret is tight which they were buried. But the disorder has become order by degrees, and little by little the dead occupants of the wall and standard cases have been restored to their allotted places, and we are now able to get an idea of the extent and importance of the fine collection of mummies and coffins which now fill the greater part of two large rooms. The first fact which strikes the ob-

server who has known the Egyptian

collection of the British Museum for about twenty years is that the sepulchre section of it has just about trebled itself since 1878, in which year it was possible to put the whole of it, without much crowding, in the room which is now called the first case room. About 1880 the late Dr. Birch was able to expand it somewhat, and the mummies and coffins were removed to the room now known as the third Egyptian room; a little later some very important acquisitions of sepulchral objects were made by the trustees, and as a result a portion of the room now called the second Egyptian was occupied by coffins and funeral furniture. After the removal of the natural history collections to South Kensington, Dr. Birch had more space allotted to him, and the large, handsome room now known as the fourth Egyptian room was almost filled by the old and more recent'y acquired collections. Some years later, under the rule of Sir Edward Maunde rearrange the whole of the Egyptian collection, and two rooms were set apart for the exhibition of the growing section of it, which included mummies and coffins. It soon became evident that more space was urgently needed if the best objects were to be fittingly lic, which is always keenly interested trustees, therefore, have, within the last few years, cut skylights in the rooms and bricked up the windows in them on the north wall of the museum. This having been done, new, hand-

some mahogany and plate-glass cases gained on the north wall, and the accommodation available or the sepulchral section was therefore more than doubled. The advantage of a top light for the examination of mummies and other objects which are exhibited in a porizontal position is evident, and now that in the new cases the tops are made of giass instead of wood the visitor gains the full advantage of the skylights. With a few exceptions, Seven and a half pounds of fruit, the old pylon-shaped cases which stood on each side of the gangway have been superseded by light but strong rectangular cases, and, owing to the large size of the squares of glass used and the light iron standards which support the exhibited specimens, the visitor can examine them with ease on every side. We may notice, too, that coffins, which were formerly placed at the back of the wall cases, have been brought forward close to the glass, and the painted scenes and inscriptions, with which most of them are profusely decorated, may be easily and thoroughly examined. The general view of both rooms is distinctly fine, and it is to be wished that other collections of mummles and coffins, both in Europe

and in Egypt, were as well housed. An examination of the contents of the cases of the first and second Egyptian rooms as now exhibited shows that the British Museum possesses about forty-four mummies and about eighty coffins, not including covers of coffins and various fragments. Takin together, these represent a period of about 4,000 years. The oldest mummified human remains in the museum are those the pyramid of Gizah, about B. C. 3640; and the most modern those of a lady whose name is unknown, who, together with her three children, was mummified about A. D. 400 (case EE). The of our patrons. cover of the coffin of Mycerinus, which is exhibited below the fragments of his mummy, is inscribed with a text that in his time was already some thousands of years old, and it is noteworthy burns, cuts, accidents of any sort. that at this remote period the king is inscribed as "living forever" by the words on it. How frequently a woman asks this question! How much thought and study she devotes to it! It is natural. A woman hates to think that she is growing day by day less charming and attractive and youthful to her husband's eyes than in the days of courtship

A woman may always retain her charms and the vivacity and freshness of youth if she will take the proper care of her health. A tremendous percentage of ill-health in women is due to weakness and disease of the distinctly feminine organism. WINE OF CARDUI

For Mothers! THE discom-

forts and dangers of child-birth can be almost eutirely avoided.
Wine of Cardui relieves expectant mothers. It gives toneto the genitalorgans, and

puts them in condition to do their work perfectly. That makes pregnancy less painful, shortens labor and hastens recovery after child-birth. It helps a woman bear strong healthy children.

MEELREES T

has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. \$1.00 per bottle.

For advice in cases requiring special directions, address, giving symptoms, the 'Ladies' Advisory Department, 'The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. LOUISA HALE, of Jefferson, Ga., Skys:

"When I first took Wine of Cardui we had been married three years, but could not have any children. Mine months later I had a fine girl baby."

Nearly Two Hundred Sick for Lack of Food.

NEW YORK, Aug. 27.-[By Associated Press]-The nurses at the general hospital at Camp Wykoff are overworked. More are coming and they will be allowed more leisure time. When the Eighth Ohio landed nearly three hundred were reported sick, but it developed later that one hundred and seventy of them were only hungry. As soon as they were fed they were able to leave the hospital. They complain bitterly of inability to get food on the vessel.
